

Linda Brodsky, MD is the founding partner of Pediatric ENT Associates (PENTA). She has more than 28 years of experience taking care of children and their families in Western New York. She enjoys treating all aspects of pediatric ear, nose and throat, head and neck problems, but is *internationally known for her expertise and innovation* in many areas including:

- swallowing and feeding problems,
- sleep disturbances, particularly sleep apnea (both adults and children)
- children with special needs,
- the effects of reflux disease on the ears, nose and throat,
- vascular birthmarks, and
- laser treatment of ear infections using the OtoLAM, particularly to place ear tubes in the office without general anesthesia.

Dr. Brodsky is also a well know educator and researcher. She achieved the highest rank of a tenured full professor of Otolaryngology and Pediatrics at the University of Buffalo. She has published greater than 100 publications and 2 books and has been awarded more than \$1 million in research funding. She has given more than 100 invited talks on four continents. Dr. Brodsky is the recipient of many awards including *Best Doctors in America since 1992* and the Local Legends Award given by the U.S. Congress and the American Medical Women's Association to women physicians who have achieved the highest level of professional accomplishment.

Dr. Brodsky was born in Brooklyn, raised on Long Island and went to college and medical school in Philadelphia. She returned to New York City to complete her training at the Albert Einstein College of Medicine/Montefiore Hospital and Medical Center. She and her husband, Saul Greenfield, MD, Director of Pediatric Urology at WCHOB came to Buffalo in 1983. They have raised their three children in Eggertsville, New York.
